

## NCRGEA *Government Relations* Update

NCRGEA Government Relations Update #21-25  
August 4, 2021

Friends,

Our journey toward getting an inflation relieving cost of living adjustment is still in the works. We expect the House leadership to work throughout the weekend to finalize the House 2021 \$24 billion budget.

We have worked tirelessly with House leadership and Appropriations chairpersons to make sure our voice is heard. We are optimistic that House leadership has heard our call.

Please stay tuned as the House budget may be released at any time over the next few days. We remain dedicated to serving you and all North Carolina government retirees. For those who communicated with our legislative members, thank you! Please remember that your voice is important.

And please, stay tuned.

Richard Rogers  
NCRGEA Executive Director
