YouTube Video Playback

How to Adjust Settings for Better Viewing Quality

Step 1:

Click the *Play* button on the video.

Step 2:

Click on the *Settings* gear (⚙) in the bottom right-hand corner of the video.

Note: If the video is available in HD, the symbol for it will appear in red on top of the gear icon.

Step 3:

Click on the option for *Quality*.

Step 4:

Select either *HD* or *720p* depending on what options are offered.

Note: HD is for highest-quality playback.
